## INSTRUCTIONS FOR USE

- Ensure hair is dry and combed through.
- PRESS 'ON/OFF' to turn on appliance.
- Press 'ON/OFF' button to select the desired straightening temperature.
- Separate a section of hair.
- Straightening:** Place the curling iron hair straightener close to the roots of selected hair, hold the hair end firmly and brush down the length of the hair, from root to tip.
- Curling:** Choose a section of hair, place the curling iron the place you want to start to make curls, clip hair between the barrels and wrap the hair to the upper barrel, then pull down to hair ends.
  - To make loose waves, wrap the hair around bigger barrel
  - To make tight curls, wrap the hair around smaller barrel
  - To make side swept bangs, place iron with an angle to make loose curl of side section of hair
  - The angle you hold the barrel is almost more important. Keep your angle the same over your whole head to get a uniform look.
  - Curl horizontally for voluminous waves. For bodacious bombshell waves, hold the curling wand totally horizontally. This encourages your waves to look larger and more voluminous
- Repeat as necessary.
- After use, press the button ON/OFF' to turn off the appliance
- Please wait until cooling down to pack up the curling iron hair straightener
